STRATEGIC PLAN

Council on Workforce Investment 2018-2022 Strategic Plan

Governor Scott Walker
Room 115 East
Wisconsin State Capitol
Madison, WI 53703

Dear Governor Walker:

On behalf of the Council on Workforce Investment (CWI), it is our honor to submit the 2018-2022 Council on Workforce Investment Strategic Plan for your review. Through the 2013 Executive Order 100, you tasked the CWI with aligning Wisconsin's workforce and talent development initiatives and investments with its economic development strategies. The goal of this publication is to ensure that careers with high market value and in-demand skill sets are filled with the most qualified individuals to provide Wisconsin with a competitive advantage for attracting and retaining businesses.

The CWI recognizes that skilled talent is one of the most critical factors contributing to the success of Wisconsin's driver industries and the economy overall. The CWI 2018-2022 Strategic Plan makes recommendations to address a broad range of workforce development system challenges through sustainable short-term and long-term activities that are designed to cultivate, attract, and retain skilled talent. In order to ensure a robust pipeline of work-ready, highly qualified individuals to support Wisconsin's businesses and job creators, the state needs to take action with great urgency to implement the CWI's recommendations.

With your support, the CWI intends to maintain the 2018-2022 Strategic Plan as a living document for use in continuing to shape and advance Wisconsin's workforce policies, strategies, and desired outcomes. Starting in 2018, review of progress and updates to this Plan will be added as a standing item on the CWI's meeting agenda.

Recommendations and plan details may be refined and updated with input from key stakeholders to ensure continual integration of the state's evolving talent and economic development strategies.

Under your direction, CWI members stand ready to serve as communication and implementation ambassadors for this Plan.

Kind Regards,
S. Mark Tyler, Chair
Governor's Council on Workforce Investment

Council on Workforce Investment Mission

The Governor's Council on Workforce Investment (CWI) is the federally mandated entity under the Workforce Innovation and Opportunity Act (WIOA) that assists the Governor in developing innovative and dynamic approaches to develop Wisconsin's workforce.

The Council plays an essential advisory role in policies that help Wisconsin employers attract, train and retain the workers they need and ensure workers can access training for in-demand careers with the ultimate goal of moving Wisconsin's economy forward.

Members of the CWI include a majority of business leaders, as well as state legislators and local elected officials, representatives from educational institutions, community-based organizations, and labor representatives from throughout the state.

The Council works closely with the Department of Workforce Development (DWD) to craft a comprehensive workforce development strategy that:

- ▶ Anticipates employer labor needs while building and strengthening Wisconsin's workforce;
 - ▶ Supports the development of a highly skilled labor force; and
 - ▶ Empowers individuals to pursue and retain good-paying careers.
- ▶ Achieving Governor Walker's vision for workforce development requires collaboration between DWD, state agencies, economic development entities, workforce development organizations, and educational institutions to support a robust talent pipeline.
- ▶ The Council will also leverage strong partnerships within Wisconsin's workforce development system to lay the foundation for continuing enhancements that will benefit Wisconsin businesses and workers.

Executive Summary

Overview

The Governor’s Council on Workforce Investment (CWI) was established in 2000 as a federal mandate under the former Workforce Investment Act (WIA) and continued under the 2014 Workforce Innovation and Opportunity Act (WIOA) to assist the state of Wisconsin in identifying and implementing innovative and dynamic workforce development strategies. The Council is charged with the ultimate goal of moving Wisconsin’s economy forward by ensuring that workers have the necessary access to in-demand career training and employment opportunities and employers have a robust skilled labor pipeline to be successful.

The CWI membership is appointed by the Governor and includes a majority of business leaders, state legislators, local elected officials, educational institutions, community-based organizations, and labor representatives from across the state. Its members work in partnership with the Department of Workforce Development (DWD) and the state’s workforce development partner agencies to create outcome-based workforce development strategies that are data-driven and reflective of employer demand.

Strategic Planning Process

In October 2017, the CWI initiated an update to its strategic plan. An online survey was completed by the Council members followed by an all-day planning session with staff from the National Governors’ Association. The Council identified Five Priority Areas and the Strategic Initiatives Committee assigned the Priorities to the various Committees as shown below.

Priorities & Assigned Committees

On November 29, 2017, Governor Walker announced his Workforce Agenda (designated as “WA” in the plan). The Council worked diligently to ensure its Strategic Plan supports the objectives of the Governor’s Workforce Agenda. Between November 2017 and March 2018, CWI members held committee meetings, conducted research and performed other work to identify the future state, flesh out objectives, and prioritize action items. This Plan reflects the outcome of this work.
